

SESEH SUNSET VILLAS

SERENITY BY THE SEA

INVEST IN A VILLA WITH SORA

Investing in a villa in Bali: an exclusive, profitable and accessible asset

By acquiring a villa, you become the owner of a prestigious property located in one of the world's most sought-after destinations. You benefit from the rental income generated by the villa, as well as the freedom to enjoy it whenever you wish. This approach allows you not only to significantly diversify your assets but also to access a stable and attractive source of income.

You have the freedom to fully enjoy your villa. Whether it's for a family vacation, a getaway with friends, or a personal retreat, your villa is yours to keep. You can stay there whenever you wish, while also retaining the option to rent it out at other times to generate income.

A selection of villas awaits you, each designed with its own unique identity, combining elegant design, high-end finishes, and optimal comfort. Whether you choose to invest alone or with loved ones, this acquisition represents a unique opportunity to combine asset appreciation, regular income, and moments of relaxation in an idyllic setting.

With simplified rental management and comprehensive support, you can be confident of maximizing your investment's potential while enjoying complete flexibility. By investing in a villa in Bali, you are choosing a top-tier real estate investment that fits into a long-term wealth management strategy, while also giving you the opportunity to experience the magic of Bali whenever you want.

Sora Immobilier

sora-immobilier.com

OWN NAME INVESTMENT

The PTPMA is the structure that most closely resembles a real estate investment company (SCI) in Indonesia. By investing, you will personally own shares in this company. PTPMA collects the rents earned from your villa. Each year, you choose to pay yourself these rents as dividends, or leave them in Bali to reinvest.

COMPANY INVESTMENT

The PTPMA, the closest equivalent to a French SCI (Société Civile Immobilière) in Indonesia, offers a simple and transparent structure for investing in a company. Your holding company, SCI, or commercial company (depending on your articles of association) becomes a shareholder of the PTPMA. The PTPMA collects the rental income from your villa. Each year, you choose to distribute this income as dividends or leave it in Bali for reinvestment.

HOW TO INVEST? TAXATION

Only 4 levels of taxes:	Paid for in Indonesia by the PTPMA	Paid in France
Rental tax (10%)	X	
Company turnover taxes (0.5%)	X	
Taxes on dividends (10% residents / 20% non-residents)	X	
Flat tax on dividends based on the difference between Indonesia and the country of residence (double taxation avoidance agreement) Example France: $31.4\% - 20\% = 11.4\%$		X

CO-INVESTMENT

Shared investment: an alternative option

By choosing shared investment, you become part of a prestigious real estate project, participating from €20,000. This option allows you to acquire shares in a villa through an Indonesian company, while benefiting from rental returns proportional to your contribution.

This model is perfectly suited to investors who want to start with a smaller budget, diversify their savings, or optimize their company's cash flow. With this approach, you can access the performance of an exceptional property. All management is handled for you, ensuring an attractive and hassle-free return. With this option, you are fully guided and you will not be able to customize your villa.

Le planning

- September 2026: Construction begins
- March 2028: Delivery and start of rental
- March 2029: Resale of the villa

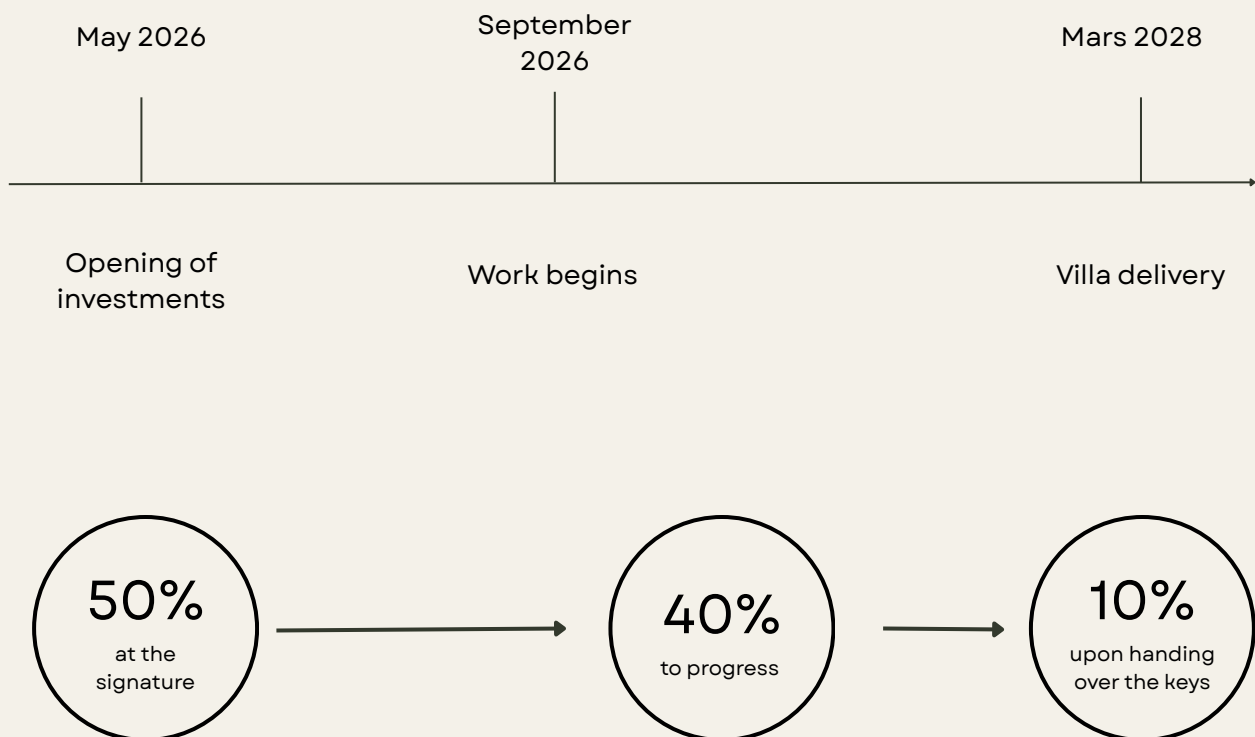

For any inquiries regarding co-investment, you can schedule an appointment here and receive all the investment conditions:
